SKILLS

PROGRAMMING LANGUAGES

• python • c# • javascript • java • dart • ruby • c

LIBRARIES / FRAMEWORKS

• Django • Django-Rest • flask • flutter • React.js • node.js • express.js • bootstrap • jquery • sklearn • tensorflow • keras • opencv • numpy • pandas • pygame • ARFoundation • sklearn • keras

TOOLS / PLATFORMS

• Unity • Blender • netbeans • GitHub • Google Analytics • Google Search Console • Linux • AWS • DigitalOcean • Heroku

DATABASES / SERVERS

• MongoDB • sqlite • Firebase • Apache • nginx

AWARDS

- SIH 2022 Finalist runner up
- 2nd price on Srijan 2023 national level competition
- Technovate 2022 runner up at RAIT
- Google Devfest oct 2021 winner
- Anveshan 2022 Finalist at Mumbai

CERTIFICATIONS

- [Udemy](#), react.js from basics to advanced
- [sololearn](#), Programming in c
- [Udemy](#), deep learning foundation course
- [Udemy](#), machine learning from basics to advanced

EXPERIENCE

AJNALENS | UNITY AR DEVELOPER

jun 2021 - aug 2021 | Remote

- Here, we had to create Augmented Reality app and tested out in smart AR glasses(AjnaSuite) provided us by AjnaLens which can give user's a better visualization experience.

HACKERRANK | SOFTWARE ENGINEERING INTERN

jul 2022 - dec 2022 | Remote

- was selected among 29,000 applicants
- Developed multiple small & medium level features for HackerResume such as adding an advertising banner in hackerrank.com and adding A/B testing. Updated whole UI & functionality of hackerresume. Integrated CI/CD(travisCI) to hackerresume repository & done unit testing for same.
- Fixed the bugs which were occurring frequently & reported by users.
- Worked with hackerrank job-board(majorly in job scraping part) solved some of the issues that developers facing in existing code-base & scrape some of tech roles from web.

PROJECTS

CALCONT.IN | [LINK](#)

Django, python, js, jquery, ML, html, css, bootstrap, Heroku

A website contains all essential tools for an individual which can be used in day-to-day life & can save a lot of time. It contains various types of calculators, converters, AI based text analyzers & translators i.e more than 40 tools available right now.
